ABOUT ME

I started my professional career in 2014. Since then, I have experienced working in various designations such as backend lead developer, frontend developer, and lead architect.

With my 4-year industry experience, I can design and implement scalable, maintainable, and pragmatic applications with least supervision.

My passion is programming. Solving problems constantly and devising efficient ways to improve people's lives is my job and success.

EXPERIENCE

2018 – Present

Intermediate Level –
Full-time Contract

Backend Developer

Detail Tech Ph.

www.detailonline.com

Davao City, Philippines
